

on the subject of shortbread, so popular with Scotch and English folk.

"But, good as was the old-fashioned kind," remarked our hostess, "it was so extremely rich that the heavy taste lingered long after eating."

"Well," said Betsy, "there's nothing like that about the shortbread we have at our house—Lorna Doone Biscuit."

"I am sure," said our hostess, "that you are right. I have tried them and they are really good."

"I was talking to mother about them only the other day," said Betsy, "and she said that they were the best she had ever eaten."

A delightful shortbread surprise awaits you in LORNA DOONE Biscuit in which abounds all the appetizing flavor of the old-fashioned kind, with none of the over-richness. Eat them without stint. The name LORNA DOONE is on every biscuit.

Sold by the pound and in the famous Inver-seal Trade Mark package.

This would not be so if the Ford car had not for sixteen years proven its superiority in service, in durability, and in the low cost for operation and maintenance; this would not be so if the Ford car was not so easy to understand, so simple in construction that anybody and everybody can safely drive it. Funeral of M. E. Morse, Native of Vershire, but Resident Here 15 Years.

The funeral of Moses Eugene Morse was held at the Center church Thursday afternoon, Rev. George Howard officiating. The funeral was largely attended by former friends and neighbors, all of his immediate family being present, including his son-in-law, Fred Deansmore of Montpelier, and his sister, Mrs. Leonard Robinson, and husband of Vershire, besides many other relatives.

The interment was at Corinth Center, where a daughter, one granddaughter and a grandson were previously buried. The bearers were Masonic brothers, E. J. Hutton, N. T. Carter, Frank Lackey and Walter Colby. The Masonic burial service was conducted by Aaron W. Eastman, P. W. M., in a very acceptable manner.

The floral display was enormous, including pillows from the family and one from the funeral home, and a wreath from the grange and the Order of Railroad Men, long sprays of carnations from the grandchildren and neighbors and from the railway employees.

Mr. Morse died at Concord, N. H., on Sunday, Nov. 16, after only four days' illness of intestinal grip, heart and liver complaint, aged 67 years. He leaves a wife, who was Belle Young, a daughter, Mabel (Mrs. George Welch), and three grandsons of Concord; one grandson, Eugene Deansmore, who was taken into the family when an infant, upon the death of his mother, Gertrude, wife of Fred Deansmore; another grandson, Merle Deansmore of Montpelier, and a son, Clarence Morse, and granddaughter, Phyllis Morse, of Corinth.

Mr. Morse had been a member of Minerva lodge, No. 58, E. and A. M., for 20 years. He and Mrs. Morse were both charter members of Minerva chapter, No. 68, O. E. S.

Mr. Morse was a native of Vershire, but resided in Corinth about 15 years, going from here to Bow, N. H., then to Lempster and later to Concord, N. H., where he had been employed by the B. & M. railroad as section hand.

Mrs. Morse is with her son, Clarence, for the present.

The bride was attended by Miss Gladys Thurston, sister of the groom, and the groom by Bert Gilman, brother of the bride. Mr. Young drew the violin bow, accompanied by his daughter, Mrs. Ernest Smith, at the piano. The ushers were Mr. and Mrs. J. McGinnahan, Earl Patrick, Irene Sargent, Gerald Thurston and Marion Wilson. There was a fine program rendered, including songs and recitations by Mrs. F. J. Hutton, John Sanborn and Herbert Dowse. The presents included a goodly sum of money, silverware, china, glassware, table linen and household utensils. Cakes and coffee were served, after which those who wished tripped the light fantastic toe until the wee sma' hours of the morning.

**Watch Your Blood**

When The Iron Runs Low You Are In Danger

The Same As When The Mercury Goes Down As You Know There Will be a Frost

How To Make The Test That Tells

Actual blood tests show that a tremendous large number of people who are weak and ill lack iron in their blood and that they are ill for no other reason than lack of iron. Iron deficiency paralyzes the forceful action, pulls down the whole organism and weakens the entire system. A pale face, a nervous irritable disposition, a lack of strength and endurance and the inability to cope with the strong vigorous folks in the race of life—these are the sort of warning signals that Nature gives when the blood is getting thin, pale, watery and literally starving for want of iron. If you are not sure of your condition, go to your doctor and have him take your blood count and see where you stand or else make the following test yourself: See how long you can work or how far you can walk without becoming tired; next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. By enriching the blood and creating new red blood cells Nuxated Iron strengthens the nerves, rebuilds the weakened tissues and helps to instill renewed energy and power into the whole system.

Unlike the older boric acid products Nuxated Iron is easily assimilated, does not injure the teeth, make them black nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed by all good druggists.

In the aftermath of our first snowstorm, which in East Montpelier means mud from six to 10 inches deep, Harry Townsend's big white horse so lost himself in the slush as to turn turtle. Everything in the wagon, including Townsend himself, went out in a most undignified manner. Fortunately no damage was done to man, vehicle or animal, but one thing, however, was broken, that was the long record of Mr. Townsend as being on hand just to the minute at the car house ready to assign the men to their daily task on the section of the M. & W. **Sickness Cure or Sickness Prevention**

When Pasteur proved the relation of germs to infectious disease, he marked a big advance in that development of medical science which reigns today—the idea of Sickness Prevention.

As a result, many plagues and epidemics that were the bane of former ages no longer terrify the world, and science has now developed an effective agent against the condition which is the first cause of over 90% of all human disease—constipation.

That effective agent is Nujol.

Nujol by relieving constipation prevents the absorption of poisons which otherwise would be taken into the blood and to under-mine the whole system.

Leading medical authorities agree that pills, salts, castor oil, etc., simply force and weaken the system.

But Nujol is entirely different.

Nujol prevents constipation by softening the food waste and encouraging the intestinal muscles to act naturally.

Nujol helps nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit of all. Get a bottle from your druggist today.

For valuable health booklet—"Thirty Feet of Danger"—free, write Nujol Laboratories, Standard Oil Co. (New Jersey), 50 Broadway, N. Y.

**Warning:** Nujol is sold only in sealed bottles bearing the Nujol Trade Mark as shown here. Beware of products represented to be "the same as Nujol." They may injure from adulteration.

A sound digestion means perfect health—woman's greatest blessing,—for without this essential, she cannot feel well. Headaches, backache, lassitude, extreme nervousness and the sense of misery women suffer at times, prevent cheerful spirits or a pleasant frame of mind. The system needs help and unless all bodily functions are allowed to perform in the way Nature intended them to, undue pain and suffering result; this not only tells upon the health but upon the looks as well.
